

## Guy & Becky, Askham - December 2013

This couple booked Annabel to manage the day itself at Askham Hall. It was one of the venues first weddings and there were many elements involved including a magician, toastmaster, silhouettist, band, DJ etc. The day was grey and very wet but everything went wonderfully and the guests had a great time!

Have you ever thought about using a Wedding Planner before you booked with Annabel? Knowing how much work weddings can be for the couple, their parents, bridesmaids and groomsmen, from the offset we wanted a wedding coordinator for the on-the-day service, to 'event manage' our big day.

On the day, did you feel it was worthwhile having Annabel there?

100% yes. Without being intrusive Annabel was always there for us. She keeps your wedding day on-track, on-time and as you wanted it. She has the patience of a saint!

Did any of your guests notice the smooth running of the day?

Our wedding reception was at a newly opened venue and many of our guests commented on how smoothly the day ran, our bridesmaids and groomsmen had an easy ride as Annabel dealt with everything.

Was there a specific point at which Annabel's presence was most needed?

We really went all-out for our wedding and this resulted in a long list of suppliers coming and going to the venue throughout our big day. Having Annabel meant that we were able to spend the day celebrating with our guests, whilst Annabel dealt with everyone from the hairdresser to the DJ.

Would you recommend Weddings by Annabel?

We'd highly recommend Weddings by Annabel. Annabel took the reins so that we could relax and enjoy every moment. She was brilliant.

Was the service value for money?

Hiring a wedding planner gives you complete peace of mind, and takes away a lot of the stress. For us this was invaluable. As Annabel was taking care of our big day, there were no sleepless nights and (as far as we know!) the day ran completely to plan.

"Thanks again for everything, just writing this now, brings it all back how amazing you were. Having you was like having a PA/event-manager/big sister all rolled into one!"
